2 Terms of Use / End-User License Agreement

1. The software solution “BPMN Modeler for Confluence - Free” (hereinafter referred to as “Software”) is provided in accordance with agreements documented in an individual contract. Information regarding the Software’s essential functions and fields of application may be found at our website.
2. User receives a simple usufructuary right to the Software’s version as delivered. User may not modify or enhance the Software. Decompiling of executable files of the supplied Software and any other reverse engineering or modification by user is prohibited.
3. The usufructuary right is not restricted in terms of time and place. User may reproduce the Software solely insofar as required for use in compliance with contract. This includes the right to make a backup copy of the Software.
4. Transfer of the Software to third parties in the surrendered version thereof or in a modified/expanded version thereof is prohibited. This applies for permanent or temporary transfer free of charge or against remuneration.
5. The Software utilises “open source software”; the respective open source license agreements apply for use of open source software. A list of open source software components, their authors and of the applicable license agreements is attached to this user agreement.
6. Use of the Software shall transpire in compliance with the following provisions and principally at user’s own risk. The supplier shall bear liability solely for defects if he has maliciously concealed them or if defects remained undetected to him due to gross negligence. Claims to damages due to Software defects are solely given in the event of malicious concealment of the defect. A claim to supply of updates or to other Software maintenance is not given.
7. Liability for minor, negligent breach of duties is excluded insofar as they do not pertain to personal injury. Any liability pursuant to the German Product Liability Act shall remain unaffected.
8. The law of the Federal Republic of Germany applies. The venue of the supplier’s registered corporate domicile shall apply as venue of courts for all disputes arising from this use agreement.
9. The wording of the German version of the Terms of Use shall apply in the event of dispute.

For utilised software/open source components and licenses see section 3.

This Font Software is licensed under the SIL Open Font License, Version 1.1. This license is copied below, and is also available with a FAQ at: <http://scripts.sil.org/OFL>

SIL OPEN FONT LICENSE Version 1.1 - 26 February 2007

PREAMBLE

The goals of the Open Font License (OFL) are to stimulate worldwide development of collaborative font projects, to support the font creation efforts of academic and linguistic communities, and to provide a free and open framework in which fonts may be shared and improved in partnership with others.

The OFL allows the licensed fonts to be used, studied, modified and redistributed freely as long as they are not sold by themselves. The fonts, including any derivative works, can be bundled, embedded, redistributed and/or sold with any software provided that any reserved names are not used by derivative works. The fonts and derivatives, however, cannot be released under any other type of license. The requirement for fonts to remain under this license does not apply to any document created using the fonts or their derivatives.

DEFINITIONS

"Font Software" refers to the set of files released by the Copyright Holder(s) under this license and clearly marked as such. This may include source files, build scripts and documentation.

"Reserved Font Name" refers to any names specified as such after the copyright statement(s).

PAGE 6/22

"Original Version" refers to the collection of Font Software components as distributed by the Copyright Holder(s).

"Modified Version" refers to any derivative made by adding to, deleting, or substituting -- in part or in whole -- any of the components of the Original Version, by changing formats or by porting the Font Software to a new environment.

"Author" refers to any designer, engineer, programmer, technical writer or other person who contributed to the Font Software.

PERMISSION amp; CONDITIONS

Permission is hereby granted, free of charge, to any person obtaining a copy of the Font Software, to use, study, copy, merge, embed, modify, redistribute, and sell modified and unmodified copies of the Font Software, subject to the following conditions:

- 1) Neither the Font Software nor any of its individual components, in Original or Modified Versions, may be sold by itself.
- 2) Original or Modified Versions of the Font Software may be bundled, redistributed and/or sold with any software, provided that each copy contains the above copyright notice and this license. These can be included either as stand-alone text files, human-readable headers or in the appropriate machine-readable metadata fields within text or binary files as long as those fields can be easily viewed by the user.
- 3) No Modified Version of the Font Software may use the Reserved Font Name(s) unless explicit written permission is granted by the corresponding Copyright Holder. This restriction only applies to the primary font name as presented to the users.
- 4) The name(s) of the Copyright Holder(s) or the Author(s) of the Font Software shall not be used to promote, endorse or advertise any Modified Version, except to acknowledge the contribution(s) of the Copyright Holder(s) and the Author(s) or with their explicit written permission.
- 5) The Font Software, modified or unmodified, in part or in whole, must be distributed entirely under this license, and must not be distributed under any other license. The requirement for fonts to remain under this license does not apply to any document created using the Font Software.
